CloudDesk Technologies

Access Control Policy

Accounts and administrative access

About this policy

This proposed policy is for CloudDesk, a fictional 75-person B2B SaaS company. It sets requirements for employee accounts and administrative access.

Employee accounts

All employees must use unique user accounts.

Administrative access

Multi-factor authentication is required for administrative access.

Document status

SYNTHETIC / DEMO. This is a model-authored proposed policy for review. It does not show that these controls are in use or that CloudDesk is certified or compliant. Review_status: requires_user_review. Approval_status: not_recorded.

CloudDesk Technologies

Access Control Policy

Access review and employee departures

Access reviews

CloudDesk reviews user access permissions every quarter.

Terminated employees

Terminated employee access is revoked within 24 hours.

How to read these requirements

These statements describe proposed requirements. They are not records of completed access reviews or access removal. This policy does not set additional roles, procedures or approval arrangements.
